

# Meeting Minutes: Group 6

---

**Meeting Type:**

Easter Plans

**Meeting Date:**

23/03/18

**Meeting Start Time:**

14:20

**Meeting End Time:**

12:50

**Attendance:**

Atiqul Islam

Matt Mead

Ollie Bland

**Absence:**

Robert Levy

Adam Moussa

**Progress:**

- Some design plan has been added
  - Draft for use case
- Layout for test schedule has been created

**Jobs:**

- Atiqul: To research and create a context model design diagram
- Ollie: To research and create an Activity diagram
- Adam: To research and create a Sequence diagram
- Matt: To research and present a Class diagram
- Robbie: To research and present a model for the GUI (elements of design are in the discussion)
- Collective: Finish design phase and try to follow the wiki on GitHub. To produce some more prototype code.

## **Discussion:**

- Aim to get design models done within Easter
  - High level Models are:
    - Context model: Atiquil
    - Activity diagram: Ollie
    - Use case diagram: Ollie
  - Low level models are:
    - Sequence diagram: Adam
    - Class diagram: Matt
    - State diagram (optional): TBD
- Implement some design patterns in the code
- GUI Model Design: Robbie
  - Layouts (drawings or created on software)
  - Colours (hex codes)
  - Token representation
  - Window panes (look and feel)
- Code prototyping

## **Next Meeting:**

TBD
